INDEPENDENT DEVELOPMENT PROJECTS

- **Personal Site:** www.jvbdev.com
- **Final Project:** Created a secure data-driven ASP.NET MVC application from design through deployment for managing the tracking and organization of hardware and software within a company. Administrators have the ability to manage employee, department data and all details relating to assigned hardware and software. <http://fsdp.jvbdev.com/>
- **Freelance:** Helped design a gallery for a webflow templated website. This company that does social marketing as freelance brought me on board for their website in showing off some of their photography and I helped design a simple slider for the images that they took for other companies. Making a small portion of their vast portfolio attractive to look at. <https://www.whitenoizstudio.com/galleries/post-coffee-company>
